**Re: Item 4a: Grant Funded Program Updates – STC Securing the Cities**

---

**Staff Recommendation:**

Information only

**Action or Discussion Item:**

Discussion only

**Summary**

The STC is currently in the implementation phase of year three and recently attended the STC Semi-Annual Stakeholder Meeting in Washington D.C. which included program presentations, a town-hall discussion, regional briefings, and capability demonstrations. The STC continues to see significant expansion with seven new sub-partners which has increased demand for training and equipment support. Upcoming training opportunities, including the UASI Public Safety Preparedness Summit will allow our partners to further enhance their operational readiness.

As part of the STC Semi-Annual Stakeholder Meeting, the STC San Francisco Bay Area reported on the Full-Scale Exercise held during the week of April 15<sup>th</sup> at Levi's Stadium. The Exercise took place over three days leading off with a tabletop session followed by a preventative search mission and concluded with a consequence management response for over 350 first responders in the Bay Area including stakeholders from Washoe, Sacramento, and Fresno Counties.

As we look forward to the Bay Area hosting a number of sporting events of national/international importance, the STC looks to enhance our radiological/nuclear detection capabilities in addition to providing Department of Homeland Security programs that are beneficial for the region.

**Project Accomplishments:**

- Attended STC Semi-Annual Stakeholder Meeting to receive threat briefings, collaborate with partner agencies, understand best practices, and develop capabilities.
- Scheduled PRNDOS series for Fresno, Santa Rosa, Roseville, and the SF Port
- Conducted Full-Scale Exercise at Levi's Stadium for 350+ Public Safety Partners.
- Initiating preparatory efforts for upcoming international/national events.
- Established MOUs with 7 new expansion partners.
- Scheduled STC Tract for UASI Public Safety Preparedness Summit
