Discussion:

Regional Project Manager Corey Reynolds will provide an update on the 2016 C-POD Planning and Security Project. The attached Appendix A is an accompanying PowerPoint presentation.

Background:

In October 2015, the Approval Authority allocated \$200,000 of FY13 unspent funds to build regional capabilities for Commodity Points of Distribution (C-POD) planning and security. In December 2015, we established a C-POD Project Steering Committee and in January 2016, two contracts were awarded: one contract (\$108,000) to CB&I for designing and executing two workshops and two trainings/tabletop exercises and the second contract (\$56,000) to Willdan Homeland Solutions for technical assistance in developing local C-POD plans.
